Why do you think, feel and act the way you do?

What motivates you?

Why do others do what they do?

Why do some relationships work better for you than others?

"More than any single tool, the Enneagram has helped me better understand and accept myself, my family members, and anyone I encounter. Whereas I used to think everyone should view the world the way I do, I now have a much greater understanding and acceptance of differences. This tool has significantly improved the quality of my relationships and helped me transform my life."
